Elementary Comprehensive Chinese

Course Description

This course aims to help international students master about 1200 Chinese words, acquire basic knowledge of Chinese phonetics, grammar, vocabulary, sentence pattern. It will integrate Chinese listening, speaking, reading and writing trainings, cultivate and enhance students' communicative competence in Chinese.

- 1) Daily listening and speaking exercises offer great opportunities for the international students to practice simple conversation on various social occasions so that they will obtain basic Chinese listening and speaking skills to reach the communicative demands in daily life, study and work.
- 2) Reading and writing training is carried out in order that the students can not only recognize and read Chinese characters, but also master the basic structure of Chinese characters, write characters, thus to enhance the comprehension and memorization of Chinese characters and vocabulary. Besides, Chinese reading and writing abilities will be actively cultivated through a reasonable amount of translating exercises to the students.
